

# Power plant Safety **Nuclear** maintenance

Steam generator  
**CEFRI**

For over 25 years, OTN built a strong reputation in the areas of electrical and mechanical maintenance in Nuclear Power Plants.

Our reactivity, our discipline and our organization allow us to meet our customers' expectations by completing tasks in restricted environments.

Through constant training, our technicians developed the necessary skills to intervene in every part of Nuclear Power Plants, constantly focused on efficiency, safety rules and quality assurance.

Through ISO 9001 and CEFRI certifications, dedicated fleet of vehicles, 24/7 hotline, our company can meet most of your demands of intervention either planned or urgent.
